POPULATION OF URBAN CENTRES OF 5,000 AND OVER

POPULATION DES CENTRES URBAINS DE 5,000 ET PLUS

Final population counts of the 1961 Census are presented in this report for all incorporated cities, towns, and villages of 5,000 and over, as well as for the metropolitan areas of those cities defined as such for census purposes. Comparative totals are shown for the Censuses of 1956 and 1951.

Le présent rapport contient les chiffres définitifs d'après le recensement de 1961 de la population des cités, villes et villages constitués de 5,000 habitants et plus, de même que des régions métropolitaines telles qu'elles sont définies pour les fins du recensement. Il contient aussi les chiffres comparatifs des recensements de 1956 et de 1951.

More detailed counts of population for all organized municipal subdivisions will be issued at a later date as part of the regular volume series of final reports of the 1961 Census. The purpose of this advance report is to make available summary totals for the larger urban centres at the earliest possible date.

Des chiffres plus détaillés pour toutes les subdivisions municipales organisées seront publiés plus tard dans la série régulière de rapports définitifs du recensement de 1961. L'objet du présent rapport est de faire connaître aussitôt que possible les chiffres relatifs aux grands centres urbains.
